

5 Free API To Level up Your Next Project

Shutterstock

Free to use images, videos and audio from Shutterstock's API

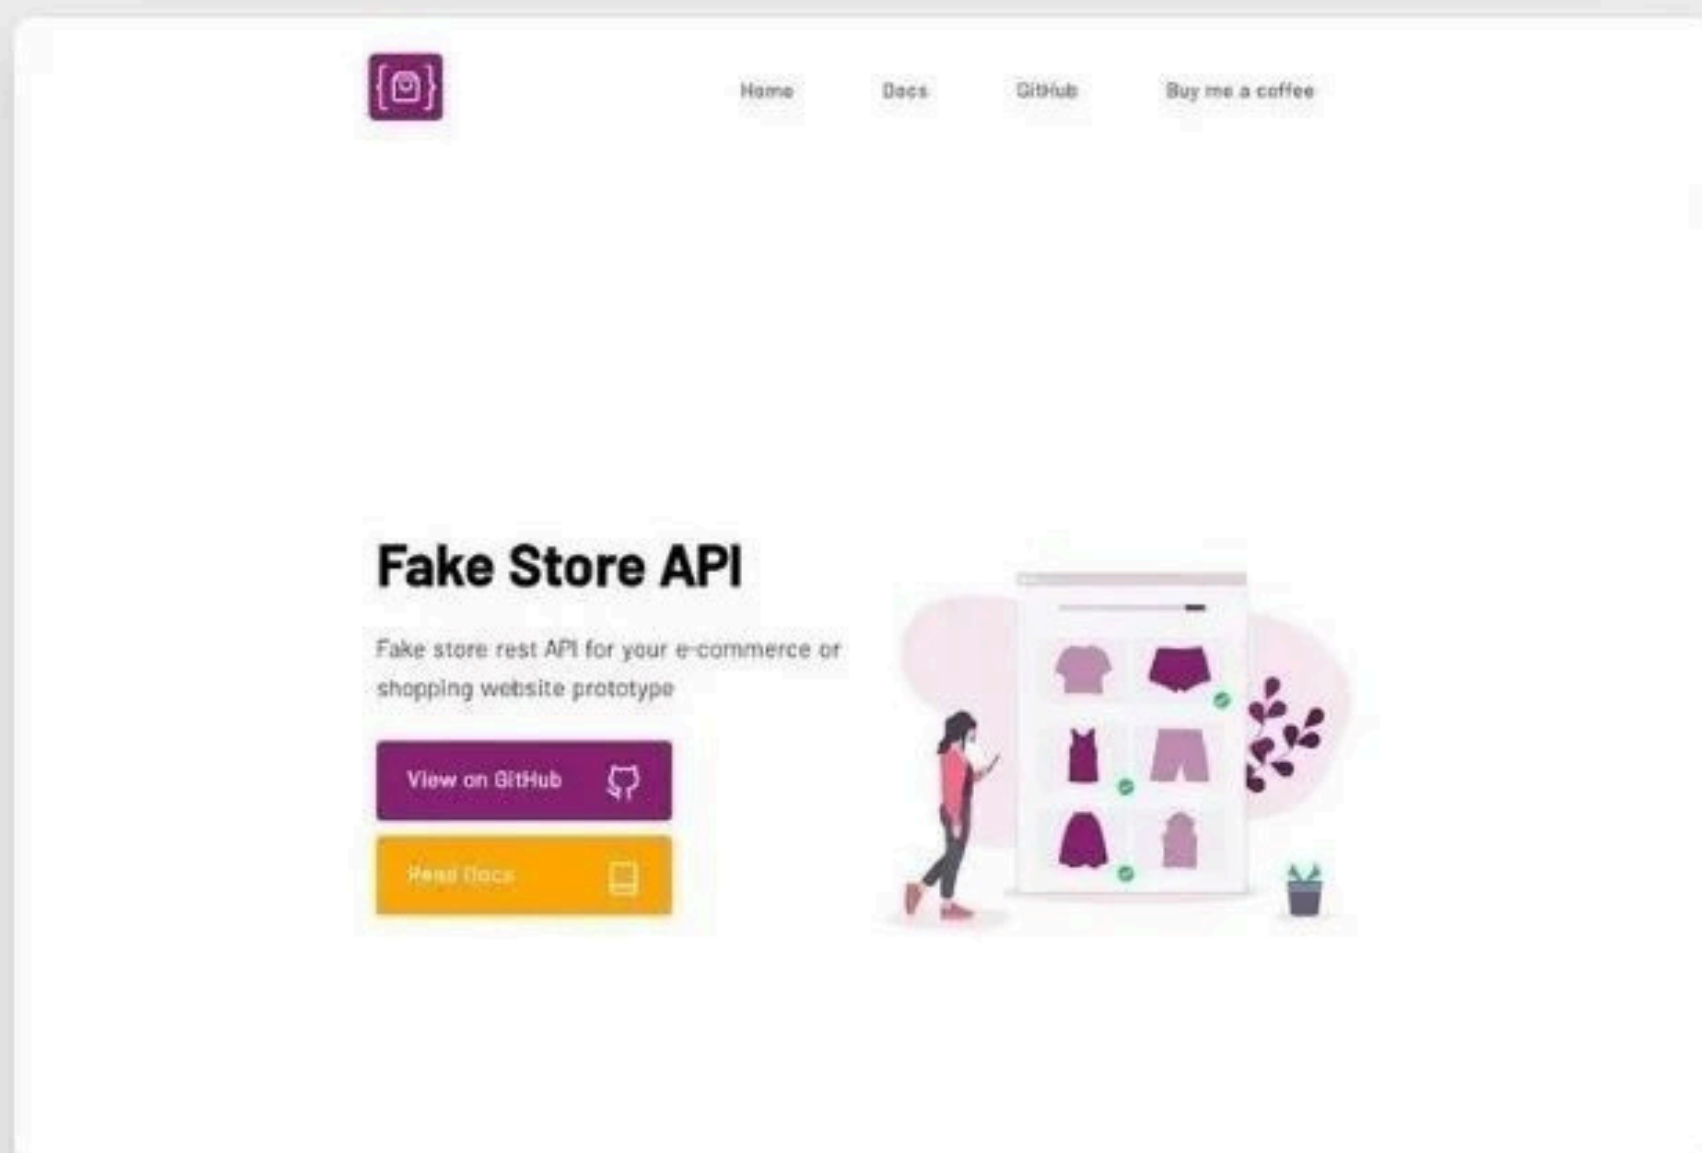

The screenshot shows the Shutterstock Developers landing page. At the top, the navigation bar includes the 'shutterstock developers' logo, links for 'SOLUTIONS' and 'DOCS & TOOLS', and utility links for 'Contact us', 'Pricing', 'English', 'Log in', and 'Sign up'. The main content area features a large heading 'Unleash creativity with 460M+ images, videos, and music tracks'. Below this, a subtext states: 'The Shutterstock API powers leading tech companies across video, advertising, web design, and more.' A red 'Request demo' button is positioned to the left of an illustration. The illustration depicts a person in a red sweater sitting at a laptop, with a thought bubble above them containing icons for video, music, and images. Below the main content, a secondary heading reads 'Build with the largest library of high-quality, authentic content', followed by a horizontal strip of six diverse, colorful images.

Serp API

Data from Google and many other popular search engines.

The screenshot displays the SerpApi website interface. At the top, the navigation bar includes links for Documentation, Integrations, Features, Pricing, Use cases, Team, FAQ, and Contact us, along with Sign In and Register buttons. The main heading is "Google Search API", followed by the tagline "Scrape Google and other search engines from our fast, easy, and complete API." Below this, there are input fields for "Search Query" (containing "Coffee") and "Location" (containing "Austin, Texas, United States"), and a prominent green "TEST SEARCH" button. The interface shows a preview of a Google search results page for "Coffee" in Austin, Texas, featuring a map, a list of coffee shops, and a detailed view of a coffee cup. To the right of the preview, a JSON response is shown, detailing the search parameters and results.
